Women are pushing past the boundaries that used to exist as they build lives that uniquely reflect them. They are choosing to limit themselves less, in the process of building and growing their own ventures.

Join us, with women from all parts of Alberta, for a dynamic day of workshops and speakers to discover how to achieve your dreams - in life and in business! MAKE IT LIMITLESS!

What can you take to the transfer site?

This is a common question that comes up with our residents. Airdrie Waste Management operates Crossfield’s transfer site at 12 Laut Crescent. They have provided us with a list of what they can accept:

- Household waste
- Cardboard
- Newspaper
- Mixed paper
- Metal
- Clear glass (no ceramics, light bulbs, mirrors)
- Automotive batteries
- Used engine oil and filters
- Electronic waste (Alberta’s Electronic Recycling Program)
- Appliances (fridges, freezers and water coolers, $28 charge for Freon removal)
- Grass and leaves (seasonal)
- Christmas trees (seasonal)
- Branches - less than 6 in. diameter (no stumps, these are garbage)
- Cell phones
- Paint cans, aerosol cans
- Styrofoam
- All plastic recycling materials #1-7
- Food waste
- Electronics: an electronic bin is available at the Transfer Station for eligible electronics under Alberta’s Electronic Recycling Program:
  - computers, servers
  - monitors - flat screen
  - laptop computers
  - desktop computers
  - multi-function printers
  - computer speakers
  - mouse
  - keyboards
  - computer cables
  - televisions (all sizes)
  - combo televisions

Summer Hours
(May 1 - September 30)
Mon/Tues/Thurs/Fri/Sat 10– 5
Wed 12 - 7
Closed Statutory Holidays

If you require additional information, please contact the Town Office at 403-946-5565 or Airdrie Waste Management at 403-945-1492.
Recycle the right way!
What can you put in your blue bin?

How to prepare your recyclables

1. Break down boxes to make more room in your blue cart.
2. Remove lids and caps from jars, bottles and cans.
3. Clean off bits of food and residue from jars, bottles, cans and containers.
4. Labels can be left on jars and cans.

Put your recyclables loose in your blue cart. Do not use garbage or blue recycling bags.

Bundle your stretchy plastic bags and cling wrap together

Bundle all stretchy plastic bags into a single plastic bag and securely tie closed before recycling. This includes:
- plastic grocery bags
- Ziploc® bags
- bread bags
- bubble wrap
- Saran™ wrap

Bag Tip: If the plastic bag or wrap stretches (like a grocery bag), it’s recyclable; if it does not stretch, crinkly or tears (like a chip bag or cellophane), it’s not recyclable.

Why? Loose plastic bags jam the recycling facility equipment and end up in the landfill. Bag your plastic bags together so they can be properly sorted.
Crossfield Community Standards News

At long last spring has sprung! Yard work has begun and with that the Town will be focusing on the regulations outlined in the Community Standards Bylaw, 2016-16. It is the vision to create a more beautiful community – and we need your help.

The Community Peace Officer will be visiting residential, commercial and industrial properties in the community to remind owners/renters of their responsibilities with keeping their property from becoming unsightly. Please visit the Town of Crossfield website at https://www.crossfieldalberta.com/en/living-in-crossfield/resources/2016-16---Community-Standard-Bylaw.pdf and view Bylaw 2016-16, Community Standards Bylaw to see how it applies to you.

Within the bylaw there are definitions (i.e. Nuisance, Park like, and Untidy or Unsightly) that describe how property conditions should or should not be in. Additionally Section 3.1: Obligation to Maintain outlines the responsibilities of property owners and renters of what is required in order to comply with the bylaw regulations.

Again, Peace Officer Stephens will be making his rounds in the community to ensure that regulations within Bylaw 2016-16 - Community Standards Bylaw, are being achieved.

The Town asks that all residents and businesses, whether owning or renting, to be mindful of the requirements and be respectful to their neighbors. Do not leave properties unattended, kindly maintain grass and keep weeds to a minimum, and trim back your trees/hedges/bushes so that they do not encroach into alleyways or neighboring properties. For corner properties please remember:

Section 7.3.4 of the Town of Crossfield Land Use Bylaw, 2018-14 states:
Notwithstanding any other provision contained in this Bylaw, no object, structure, fence, hedge, shrub, or tree above a height of 0.91 m (3.00 ft) shall be placed in or on that part of a corner parcel or site located within any district which lies within a triangle formed by a straight line drawn between two points of the intersecting property lines of said site, 3.00 m (9.84 ft) from the point where they intersect (See Figure 5 - Sight Line Setbacks).

The Town thanks everyone for their co-operation throughout this enforcement effort.

With drier conditions ahead, we must be careful with outdoor fires and putting out cigarettes. So many times we see people throw their cigarettes out windows while driving, and even while walking around town. Make sure cigarettes and smoking materials are extinguished properly.

With camping season upon us, check the website https://www.albertafirebans.ca/ to find out if there are any bans in town or where you might be going to camp. Grass fires can get out of control quickly and cause a lot of damage.

Are you prepared for an emergency? There are many reasons why we might lose power and need to be ready by having an emergency kit. Check out this site for ideas: https://www.ready.gov/build-a-kit

We will have a few tables out for Pete Knight Rodeo weekend to discuss the Fire Smart program. This program shows us how to make sure we are set up to deter fire spreading across our property. Watch for more details about our Fire Smart information and displays.
